

SESSION VII

FLY ASH IN STRUCTURAL AND MINE FILL

VII-1	ENVIRONMENTAL CONSIDERATIONS FOR THE STUDY OF ASH HAUL BACK TO ABANDONED OPEN CAST COAL MINE IN SINGRAULI REGION IN CONJUNCTION WITH THE FINANCIAL ASPECTS <i>S.K. Dube, Mark Sharpe and David L. Creemens</i>	1
VII-2.	RESEARCH OF PROPERTIES AND UTILITIES OF FLY-ASH BACKFILL MATERIAL <i>Sun Jia Ying</i>	18
VII-3	CONSIDERATION FOR DYNAMIC STABILITY OF ASH FILL <i>A. Trivedi, R. Pathak, S. Singh and V.K. Sood</i>	24
VII-4	A STUDY ON UTILISING FLYASH AS FILL MATERIAL IN OPEN CAST MINES <i>B. Sivagnanam, N. Nagulan and S. Ayemperumal</i>	29
VII-5	ESTIMATION OF LOAD CARRYING CAPACITY OF COMPACTED ASH FILLS <i>N.P. Kaushik and G. Ramasamy</i>	37
VII-6	TECHNOLOGY DEMONSTRATION OF STRUCTURAL FILLING OF ASH : RESULTS FROM IOC BOTTLING PLANT SITE AT BADARPUR <i>Umesh Dayal and Rajiv Sinha</i>	43
VII-7	UTILIZATION OF FLY ASH FOR THE STABILIZATION OF SWELLING SOIL <i>S.K. Chaudhary</i>	51
VII-8	DISPOSAL AND USE OF COALCOMBUSTION PRODUCTS IN MINED ENVIRONMENTS <i>Paul F. Ziemkiewicz</i>	59
VII-9	SHEAR STRENGTH CHARACTERISTICS OF COMPACTED FLY ASH USED AS GEOMATERIAL FOR THE CONSTRUCTION OF EMBANKMENT <i>U.N. Sinha, S. Karthigeyan and A.K. Sinha</i>	70
VII-10	REVAMPING UNDERGROUND MINING SYSTEM IN CONJUNCTION WITH BULK UTILIZATION OF POWER STATION ASH - SCOPE AND BENEFITS <i>A.N. Sinha</i>	77
